**Section A (75 marks)**

Answer **all** the questions in this section in the spaces provided.

1. a. Describe any **two** aims of COMESA.

---

---

---

---

---

(4 marks)

- b. State any **two** advantages of using water transport.

---

---

(2 marks)

- c. Describe any **two** challenges associated with the use of air transport.

---

---

---

---

---

(4 marks)

- d. Explain any **two** factors which influence the uneven distribution of railway lines in Africa.

---

---

---

---

---

(4 marks)

Continued/...

## 1. (Continued)

- e. Name any **one** industrial region of Japan.

---

(1 mark)

- f. Describe any **two** physical factors influencing the development of the motor industry in Japan.

---

---

---

---

(4 marks)

- g. Explain any **one** political factor which has influenced the development of tourism in Africa.

---

---

---

---

(2 marks)

- h. Explain any **two** ways in which the development of tourism has negatively affected Africa.

---

---

---

---

(4 marks)

2. a. Describe any **two** physical factors which influence the location of a settlement.

---

---

---

---

(4 marks)

Continued/...

## 2. (Continued)

- b. Give any **two** advantages of linear settlement pattern.

---

---

(2 marks)

- c. Mention any **one** example of an urban settlement.

---

(1 mark)

- d. Describe any **two** factors which lead to development of squatter settlements.

---

---

---

(4 marks)

- e. Describe any **two** environmental problems which are influenced by rapid population growth.

---

---

---

---

(4 marks)

- f. Explain any **two** positive implications of a youthful population on a country.

---

---

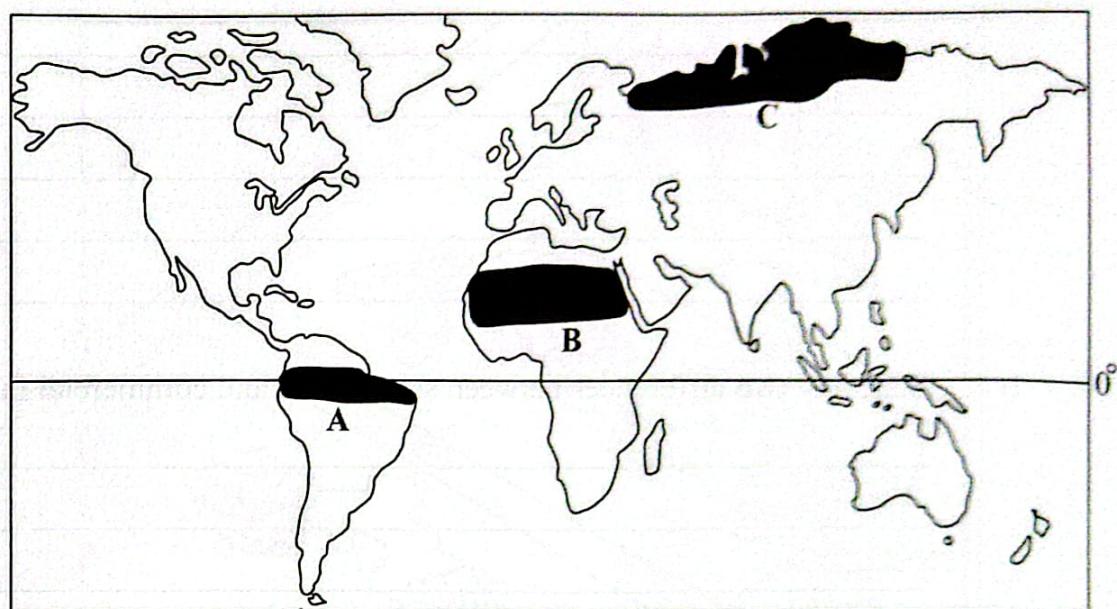

---

(4 marks)

Continued/...

## 2. (Continued)

- g. Figure 1 is a world map showing some regions with low population density.

**Figure 1**

Explain any **one** factor which has influenced the low population density in each of the following regions shown on the map.

- (i) region A

---

---

---

**(2 marks)**

- (ii) region B

---

---

---

**(2 marks)**

- (iii) region C

---

---

---

**(2 marks)**

Continued/...

3. a. Describe any **two** technological factors which influence the distribution of agricultural systems.

---

---

---

---

---

(4 marks)

- b. State any **two** differences between subsistence and commercial farming.

---

---

---

---

(2 marks)

- c. Outline any **two** characteristics of plantation farming.

---

---

(2 marks)

- d. Describe any **two** challenges associated with plantation farming.

---

---

---

---

---

(4 marks)

Continued/...

## 3. (Continued)

- e. Figure 2 is a diagram showing a method of irrigation. Use it to answer the questions that follow.

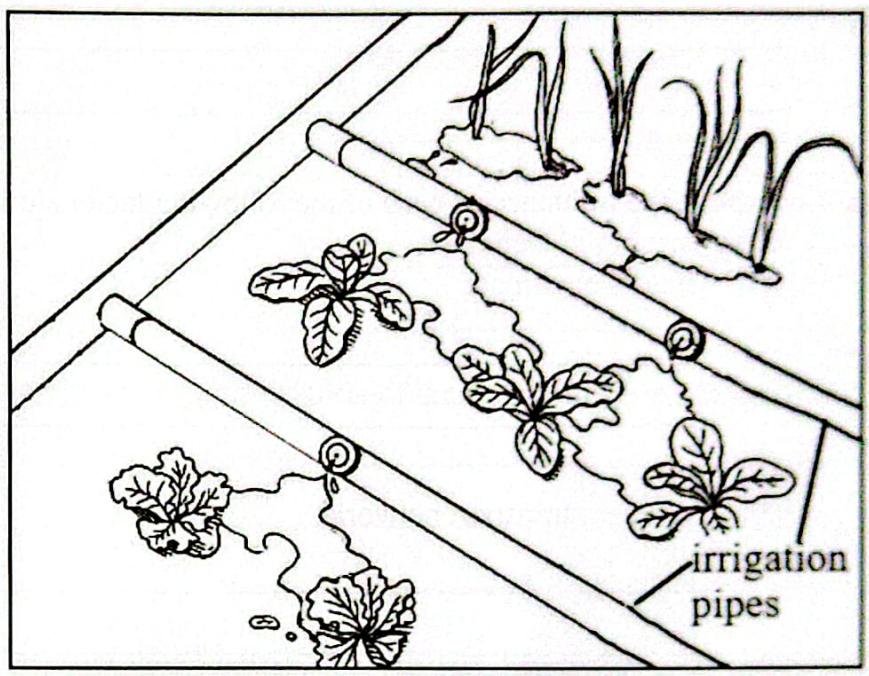

Figure 2

- (i) Identify the method of irrigation shown in the diagram.

(1 mark)

- (ii) State any two advantages of using the method of irrigation shown in the diagram.

---

---

(2 marks)

- (iii) Explain the process of irrigation using the method shown in the diagram.

---

---

---

---

(4 marks)

Continued/...

## 3. (Continued)

- f. State any **two** ways in which dairy farming is important to the economy of Denmark.

---

---

(2 marks)

- g. Explain the influence of each of the following factors towards dairy farming in Denmark.

- (i) mild wet climate

---

---

(2 marks)

- (ii) efficient transport networks

---

---

(2 marks)

**Section B (25 marks)**

Answer **one** question only from this section in the spaces provided.

4. a. Define the term “climate change”.

---

---

(1 mark)

- b. Classify the following into climate change mitigation and climate change adaptation measures in the **table below**.

(4 marks)

- planting drought resistant crops
- using alternative sources of energy
- re afforestation
- diversifying rural economies

Mitigation measures	Adaptation measures

Continued/...

## 4. (Continued)

c. Mention any **one** ore of uranium.

(1 mark)

d. Describe any **two** benefits of uranium mining in Malawi.

---

---

---

(4 marks)

e. Explain any **two** negative effects of uranium mining in Malawi.

---

---

---

(4 marks)

f. With the aid of a flow diagram, describe the process of producing energy using biomass.

---

---

---

---

---

---

---

(7 marks)

g. Explain any **two** challenges associated with the use of biomass energy.

---

---

---

---

---

---

---

(4 marks)

Continued/...

**2025**

- 5. a.** Describe each of the following policies which are aimed at climate change mitigation and adaptation.

- (i) National Environmental Policy

---

---

---

**(2 marks)**

- (ii) Malawi National Strategy on Sustainable Development

---

---

---

**(2 marks)**

- b.** Mention any **two** renewable resources of energy apart from wind.

---

---

---

**(2 marks)**

- c.** Briefly describe the process of generating wind energy.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**(4 marks)**

- d.** Name any **two** places where uranium is found in Malawi.

---

---

---

---

---

---

**(2 marks)**

Continued/...

## 5. (Continued)

- e. Explain any two factors which are affecting the development of mining industry in Africa.

---

---

---

---

(4 marks)

- f. Figure 3 is a diagram showing a fishing method.

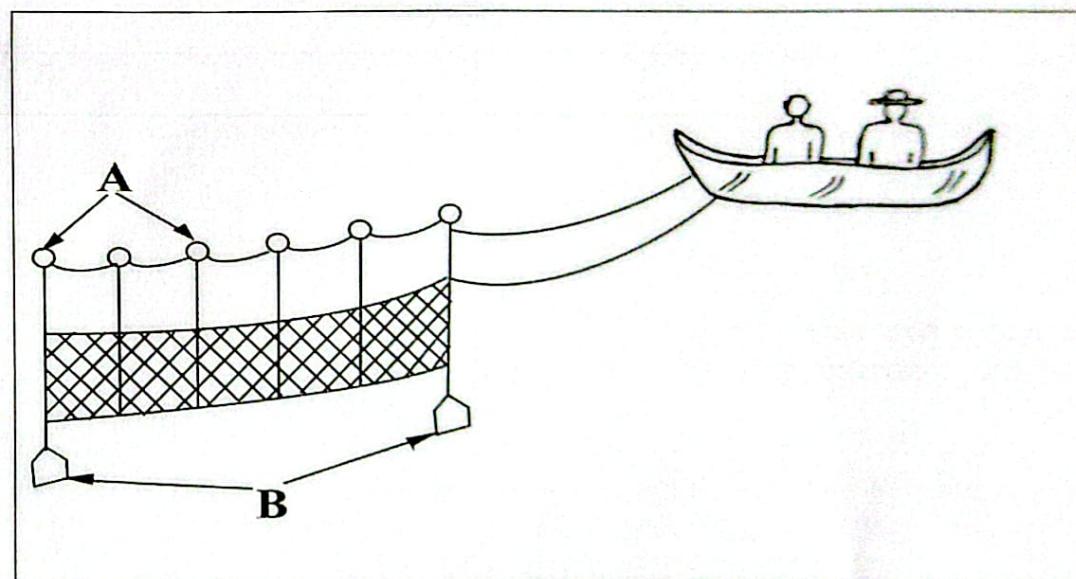

Figure 3

- (i) Identify the fishing method shown in the diagram.

---

(1 mark)

- (ii) Name the parts labelled A and B.

A: \_\_\_\_\_ (1 mark)

B: \_\_\_\_\_ (1 mark)

Continued/...

## 5. f. (Continued)

- (iii) Mention any two examples of fish species harvested using the method shown in the diagram.

---

---

(2 marks)

- (iv) Briefly describe the process of fishing using the method shown in the diagram.

---

---

---

---

---

(4 marks)

**END OF QUESTION PAPER****NB:** This paper contains 12 printed pages.
