NATIONAL PRAYERS

When a country is holding national prayers, followers of different religions come under one roof for prayers. They pray in turns. This promotes oneness and it really proves that we are children of one God. For example, 3rd March is martyr's day in Malawi. This day is commemorated in such a way that Malawians gather at one place for national prayers.

During such gatherings, different religions are assigned different roles. Unity in religious diversity is needed for this to work
